### We need to Unlearned to be able to Relearn!

You can go back to be your true essence and be like children again. Share this with your children and grandchildren so they can stay "pure at heart" and be happy NOW, so they don't have to go through what we went through. Give them the gift to be themselves, to love and accept themselves just the way they are and stop looking for approval and love in the wrong places.

### The Easiest Way to Grow – vBook

All the pictures in my children's book are weird stories I heard during my twelve years living, working, traveling and teaching with Dr. Ihaleakalá Hew Len. The same weird stories that opened up my mind, allowed me to become a child again, made me more humble, and made me realize I didn't know as much I thought I did. Now you have them in one place. Enjoy them anywhere, even from the comfort of your own home.

### Enjoy what these children say about "The Easiest Way to Grow"
